Vacancy not to  
invalidate act or  
proceeding.

**10.** No act or proceedings of the Authority shall be questioned or shall be invalidated merely on the ground of the existence of any vacancy or defect in the constitution of the Authority.

Integrated State  
Water Plan.

**11.** (1) The Authority shall prepare, within one year from the notification issued under sub-section (1) of section 3, and every three years thereafter, an Integrated State Water Plan based on water plans prepared for every block.

(2) The Government may, on the recommendation of the Authority, if deemed necessary, divide the State into different categories based on the stage of groundwater development, the trend of groundwater level depletion, the level of water table, quality of groundwater, availability of surface water or other relevant criteria, as it may deem appropriate in view of the local conditions:

Provided that the categorization shall not take effect unless a notice in this regard is published and objections, if any, are decided in such manner, as may be prescribed.

(3) The Authority may, with prior approval of the Government, conduct or cause to be conducted, annually or at such periods, as the Authority may deem necessary, field studies for the purpose of categorization of the State into zones of ground water resource potential, usage and recharge.

(4) Based on the categorization notified under sub-section (2), the Water Plan for every block or for any area within the block shall be prepared by the Authority, in such manner, as may be prescribed and it shall cover all aspects of demand and supply of water for various purposes.

(5) The Integrated State Water Plan shall be placed before the Government or any authority authorized by the Government in this behalf, which may, with such modifications as deemed necessary, approve it within a period of six months from the date of submission.

(6) The Authority shall review and revise the Integrated State Water Plan after every three years from the date of its approval by the Government.

**12.** (1) The Authority may, with the prior approval of the Government, issue directions with regard to the development, management and conservation of water resources of the State in accordance with the Integrated State Water Plan.

Powers, functions and duties of Authority.

(2) The Authority may, with the prior approval of the Government, impose restrictions, if any, for categorization water resource potential, usage and recharge across the State.

(3) The Authority shall, prepare and get approved a framework from the Government, for granting permissions under section 16 or to achieve any other purposes of this Act.

(4) The Authority may, with prior approval of the Government, issue directions, by giving notice and inviting objections, if any, in such form and in such manner, as may be prescribed, regarding the development, use, management and conservation of water resources which may include the following, namely:-

- (a) conditions for operation of existing water extracting structures and their regularization;
- (b) restrictions on the utilization of groundwater;
- (c) specifying areas in which the water users including industrial operations or processes utilizing groundwater shall not be carried out or shall be carried out subject to certain conditions and safeguards;
- (d) optimal use of water for domestic, irrigation or industrial use;
- (e) drilled or already dug structures for extraction of groundwater without registration;
- (f) users drawing groundwater to register the extraction structure with the Authority or with such entity, as may be specified by the Authority within a given period;
- (g) efficient use of water and to minimize the wastage or misuse of water and to promote recycling and reuse of water;
- (h) installation and maintenance of instruments for measuring the quality and level of ground water and for volumetric measurement of the quantum of ground water extraction;
- (i) promote micro irrigation techniques, sustainable technologies and energy efficient systems with a view to safer environment;
- (j) water conservation and groundwater recharge, including rainwater harvesting;
- (k) to determine the priority of distribution of water resources available in the State and strive for equitable distribution;
- (l) to regulate extraction of groundwater for drinking, domestic, industrial, commercial and agriculture use; and
- (m) any other directions, as may be considered necessary to achieve the objectives of this Act.

(5) The Authority may, from time to time, issue advisories to the Government, regarding effective implementation of policies and programs of the Union Government and Government of Haryana for development, management, and conservation of water resources, as follows:-

- (i) sustainable operation and maintenance of the water infrastructure and water delivery systems within the State;
- (ii) to promote sustainable water regime in the public interest, based on the long-term projection of available resources;
- (iii) to reduce and prevent pollution and degradation of water resources;
- (iv) utilization and storage of surface runoff;

- (v) optimum utilization of the irrigation potential created in the State;
- (vi) fixing priorities for use of canal water for different purposes;
- (vii) adoption of the latest technologies in the water sector;
- (viii) promoting water conservation awareness;
- (ix) facilitating the implementation of the Water Security Plan;
- (x) detection and prevention of contamination of water;
- (xi) increasing water efficiency in agriculture and other sectors;
- (xii) water audit of irrigation, multipurpose water projects, canal systems giving a systematic and scientific water account of the projects and canal system.

(6) The Authority may, publish or cause to be published such reports to disseminate scientific data and information to generate public awareness about water and its management.

(7) The Authority shall make recommendations to the Government for the establishment of a system for enforcement, monitoring and measurement of the quality and type of water use in compliance with the entitlements as issued by the Authority.

(8) The Authority shall publish report with regard to the Ground Water Resources and Surface Water Resources in the State annually.

(9) The Authority shall, make recommendations to the Government, for monitoring and implementation of stipulated quality standards for disposal of wastewater by various water users such that the wastewater is at least of such quality as may be prescribed, so that it may be used for irrigation and take actions against violators.

(10) The Authority shall recommend Bulk Water Entitlements for rural water supply, municipal water supply, irrigation water supply or industrial / commercial water supply.

(11) All orders and decisions of the Authority shall be authenticated by the Chairperson or any other officer of the Authority duly authorized by the Chairperson.

(12) The Authority shall have the power to take *suo-moto* cognizance of any subject dealing or involving water and issue directions with prior approval of the Government.

(13) The Authority shall recommend parameters for the categorization of the blocks or for areas within the block to the Government.

(14) The Authority may, through deployment of modern technological tools, map the aquifer in the State, prepare hydrological map and integrate these inputs in comprehensive water resources plan and impose such restrictions/obligations and mechanisms to make the water regime sustainable in the State.

(15) The Authority may, in consultation with the Government, carry out or cause to be carried out surveys, investigations and research relating to conservation, usage, or quality of water etc.

State  
Groundwater  
and Surface  
Water Plan.

**13.** (1) The Authority shall, consolidate and prepare State Groundwater and Surface Water Plan, based on the plans received from the District Water Resources Planning Committees, by giving notice and inviting objections, if any, in such form and in such manner, as may be prescribed.

(2) The Authority may, in consultation with the Government, engage experts and consultants, on temporary basis, for formulation of district ground water and surface water plans, input parameters, templates and capacity building.

(3) The Authority shall submit the State Groundwater and Surface Water Plan to the Government for consideration and approval.

District Water  
Resources  
Planning  
Committee.

**14.** (1) There shall be a District Water Resources Planning Committee, at each district of the State, which shall prepare District Water Resources Plan.

(2) The composition of District Water Resources Planning Committee shall be such, as may be prescribed.

(3) The District Water Resources Planning Committees shall perform the following functions, namely:-

- (i) to prepare District Water Resources Plan comprising of block-wise/ area-wise plans by giving notices and inviting objections, if any, in such form and in such manner, as may be prescribed;
- (ii) to consider and decide, within a period of two months, all objections received against the District Water Resource Plans and finalize the District Water Resource Plan and submit to the Authority;
- (iii) to identify and demarcate such areas which are found affected with water resources quality and pollution hazards for the purpose of prevention and control of water including ground water and surface water pollution in such areas and also to find safe water quality zones for potable water supply.

**15.** (1) The Authority shall prepare the State Water Security Plan, which shall be finalised after approval by the Government, taking into account progressively available information regarding water resources, including aquifer, in consultation with elected local representatives.

Water Security Plan.

(2) The objectives of the Water Security Plan shall be:-

- (a) attainment of sufficient quantity of safe water for life and sustainable livelihoods;
- (b) ensuring water security even in times of emergencies like droughts, floods and pandemics or any natural calamity etc.

(3) The Water Security Plan shall be prepared at the lowest administrative level, taking into account the fact that where an aquifer does not fall under the jurisdiction of a single Gram Panchayat, block, district, ward or municipality, the plan must integrate inputs at all the levels of the Authority under whose jurisdiction the whole aquifer falls.

**16.** (1) All permissions to use water other than the permissions granted under the Haryana Canal and Drainage Act, 1974 (29 of 1974), shall be granted by the Authority:

Permissions.

Provided that the Administrative Secretary to Government, Haryana, Irrigation and Water Resources Department, shall grant permissions, under the provisions of this Act, after the notification under sub-section (1) of section 3 and till the Authority is constituted.

(2) Any entity or person, who intends to use water shall apply to the Authority, in such form and in such manner, along with such fee, as may be prescribed, for permissions for construction and installation of any infrastructure or contraption etc., as the case may be.

**17.** The Government may, in consultation with the Authority, by notification in the Official Gazette, relax any restriction imposed under this Act.

Relaxation of restrictions.

**18.** (1) The Authority shall recommend to the Government, tariff for all uses of surface water and use and disposal of treated wastewater.

Tariff for use or disposal of water.

(2) The tariff shall be determined by the Authority and shall be based on the principles of economy, efficiency, equity and sustainability, in such manner, as may be prescribed. As far as possible, the tariff shall be based on volumetric measurements of water consumption and shall be designed reasonably.

**19.** (1) The Authority may appoint any of its officer or, in consultation with Government, such officer as may be nominated by the Government, as Enquiry Officer for the purposes of making any inquiry under this Act:

Power of Authority to appoint Enquiry Officer.

Provided that nothing in this section shall prevent the Authority to conduct any inquiry on its own.

(2) The Authority or the Enquiry Officer appointed under sub-section (1), shall have the powers as are vested in a civil court under the Code of Civil Procedure, 1908 (Central Act 5 of 1908) in respect of the following matters, namely:-

- (ii) requiring the discovery and production of documents;

- (iii) receiving evidence on affidavits;
- (iv) requisitioning any public record or copy thereof from any court or office;
- (v) issuing summons for examination of witnesses.

(3) The Enquiry Officer shall, on conclusion of the inquiry, present his report to the Authority:

Provided that the Enquiry Officer shall, submit interim report to the Authority, as and when required by the Authority.

(4) The Authority may, on the conclusion of the inquiry, made by the Authority or on receipt of the final or interim report from the Enquiry Officer, take such action as it deems fit, subject to the provisions of this Act.

Power of entry and inspection.

**20.** Any person appointed as Enquiry Officer under section 19 or specially empowered by the Authority in this behalf, shall have the right to enter, at all reasonable times with such assistance, as he may consider necessary, any place for the purpose of determining whether and, if so, in what manner, orders or directions given by the Authority under this Act are being complied with.

Self-regulation, rainwater harvesting, groundwater recharge, re-cycling and re-use, prevention of water logging.

**21.** (1) The inhabitants of the State shall be encouraged by the Authority for adopting the process of self-regulation.

(2) In order to protect, conserve and regulate ground water and surface water resources in the water stressed areas, the process of self-regulation shall be adopted, in the following manner, namely:—

- (i) the inhabitants shall ensure that by applying desired quantity of irrigation water/number of watering to the crop, as per the requirement of water scientifically recommended for different crops so that the wastage of ground water, surface water and over-irrigation is avoided;
- (ii) the inhabitants of State shall be encouraged to adopt various water conservation/ water saving practices including farm-bunding, farm ponds, use of seeds of low water crops, use of drip and sprinkler irrigation systems and other water saving techniques;
- (iii) every user of water, in both rural and urban areas, shall be encouraged to extract and use ground water and surface water in an economical and efficient way, avoid waste of water, give priority to recycled water, adopt rain water harvesting and recharging methods.

(3) The Authority shall encourage rainwater harvesting and catchment conservation as per geohydrological conditions. The Authority shall sensitize different users of ground water about the suitable technologies of rainwater harvesting structures in stressed urban and rural areas. Users of ground water may obtain suitable technical drawings and design of rain water harvesting system from the Authority.

(4) Notwithstanding anything contrary contained in any other State law for the time being in force, the Authority may recommend conditions stipulated under existing building bye laws for providing roof-top rainwater harvesting structures, duly issued by the Government by notification. Such stipulations shall be binding on concerned Government agencies sanctioning or approving building plans.

(5) The Authority shall ensure catchment conservation which shall include groundwater conservation/ appropriate recharging structures depending on the nature of the terrain soil conditions and geohydrology of the area.

(6) The Authority shall encourage re-cycling and re-use of water for non-potable urban, industrial and agricultural use.

(7) The Authority shall discourage and prevent such activities that are likely to lead to potential water logging of land and shall undertake all possible regulatory measures for the protection of land against water-logging.

(8) The Authority shall encourage water-logging mitigation measures to be adopted by using appropriate processes and technologies in consultation with the concerned departments/bodies.

**22.** Whoever fails to comply with or contravenes any direction or order issued under this Act or abets the contravention or non-compliance thereof, shall be deemed to have committed an offence under this Act and shall, on conviction, be punishable,-
