

**Haryana Water Resources (Conservation, Regulation, and  
Management) Authority, Panchkula**

**ORDER**

**No. HWRA/MOM/Orders/07**

**Dated : 12.01.2023**

**Subject :- Consideration of Days for calculation of Tariff.**

It has been decided by the Authority vide agenda 8 of 16<sup>th</sup> meeting and agenda 14.5 of 20<sup>th</sup> meeting that in all cases, in which NOCs have been issued or will be issued in future, the tariff is to be calculated on the basis of operational days mentioned by the applicant agencies in their application submitted through online portal but these operational days shall be considered 300 in case of lesser days submitted by the applicant agencies until and unless any conclusive proof in support of lesser operational days duly authenticated by the Chartered Accountant is given by the applicant agency.

In case of operational days filled in the application are higher than 300, the same shall be considered for calculation of tariff in all cases. While calculating Tariff on the basis of lesser operational days, the effect of lesser days shall fall in the last slot of tariff. However, the due date for the slot of lesser days shall be the next date after the completion of said slot. For example, in case of 300 operational days, the slots of calculation of tariff shall be 90-90-90-30 but the due for payment of last slot of tariff shall remain next day after 95/96 days as the case may be.

The tariff is to be charged on the basis of the applied quantity or on the actual consumption recorded by the applicant agencies on the basis of meter reading, whichever is higher. That is why the due date for last quarter is being kept next day after 95/96 days as the case may be so that the applicant agency can fill the closing meter reading and actual quantity of ground water can be ascertained for calculation of tariff.

This issues with the approval of Chairperson, HWRA
